I am writing to express my disapproval of the proposed Code of Practice for the Medical Profession.

Instead of abiding by good and proper medical practices, this proposal wants to introduce harmful and detrimental practices into our medical profession and therefore society.
Why are you doing this ?

You are wanting to take away the rights of Medical Practitioners and as a consequence our rights and parental rights, the right of freedom of truth, of conscience, of religion, and of speech which our forefathers fought and died for, freedoms we all enjoy and you, the gov, are fast wanting to take from us.
Why are you doing this?

When any gov. uses force to change their society, it's always detrimental to the citizens.
[financial blackmail fines court procedures prosecution gaol etc.]
Why are you doing this ?

We have unalienable rights and freedoms (mentioned above) which you the gov. should be enforcing.
Why are you not upholding and enforcing these rights ?

Why are you going against the
Nuremberg Code
which says no one receives medical treatment without informed consent ?
Why are you not upholding and enforcing this Code?

Why are you doing this ?

Sincerely,

M. Whitty
