Subject: Doctors' Health Programs

Thank you for the opportunity to comment on a proposal to extend the Victorian Doctors Health Program nationally. I am not in favour of such a proposal, since I believe that doctors have at least the same access to health care as other citizens. There is no need to increase their registration fees to provide for their health care. I believe that the regulatory issues regarding doctors' health can be dealt with in the current structure of the Medical Board.

Yours sincerely,
John Gallo, FRACP, FRCPA
