Comments - Comments - [Registration Number: Not Supplied] [REDACTED] After reading Miranda Devine's article in the Sunday Telegraph 29/7/18 I am concerned that AHPRA is overstepping it's disciplinary powers and intruding on an individuals right to freedom of speech. AHPRA should not be allowed to censor or intimidate any health professional who expresses an opinion different from what is considered to be politically correct. Freedom of health professionals to question trends or changes in health practices is necessary not just in the name of free speech but in health advancement.
