Dear APHRA

I request that any discussion of cosmetic surgery includes cosmetic genital surgery, and urge the adoption of the recommendations of the WHV

paper <http://whv.org.au/static/files/assets/ca7e9b2f/Women-and-genital-cosmetic-surgery-issues-paper.pdf>

Young Australian women are in some cases having surgery performed on their normal healthy genitals in order to achieve the appearance seen in digitally- (or cosmetic surgically-) altered women seen on the internet.

yours sincerely

Andrea Walker
