**Subject:** Guidelines for cosmetic surgery

Dear AHPRA,

Thank you for your considered approach to cosmetic surgery guidelines. As an intern doctor I fully support several aspects stated, including the mandatory 'cooling off' periods for cosmetic procedures. In addition I am disheartened, but understand it is necessary, to explicitly state that there should be a face-to-face meeting for several cosmetic injectables, and that treating practitioners should be the ones responsible for any emergency complications.

Kind regards,  
Tom Ledger,  
Hornsby Hospital (JMO)
