

Re :- Cosmetic Injecting Nurse

To whom it may concern,

I have had my Botox and filler treatment done at Topaz Hair Design in Ballarat, by Trish Matheson for over a year now. I cannot fault my consultations in any way.

Firstly, the consultation room is very clean and hygienic. I start my consultation off discussing with Trish what I want from this treatment and with a doctor on real time video.

Everything is covered in that time, from medication, to allergies, to what to expect from my treatment, and how to manage side affects if any should arise. I was very impressed with how thorough my consult was, considering I had one previous Botox treatment 2 years prior with a GP, and I wasn't asked anything like that, or even informed about side affects.

During consultations i have never been made me feel like I'm on a time limit. Trish is so happy to explain any concerns I have, and gives me so much information about all the treatments available. There are also unlimited brochures to take home regarding my treatment.

Trish makes me feel so comfortable, my privacy is respected also, and I cannot recommend her highly enough.

Yours

Jenny
